

Mech Card Game

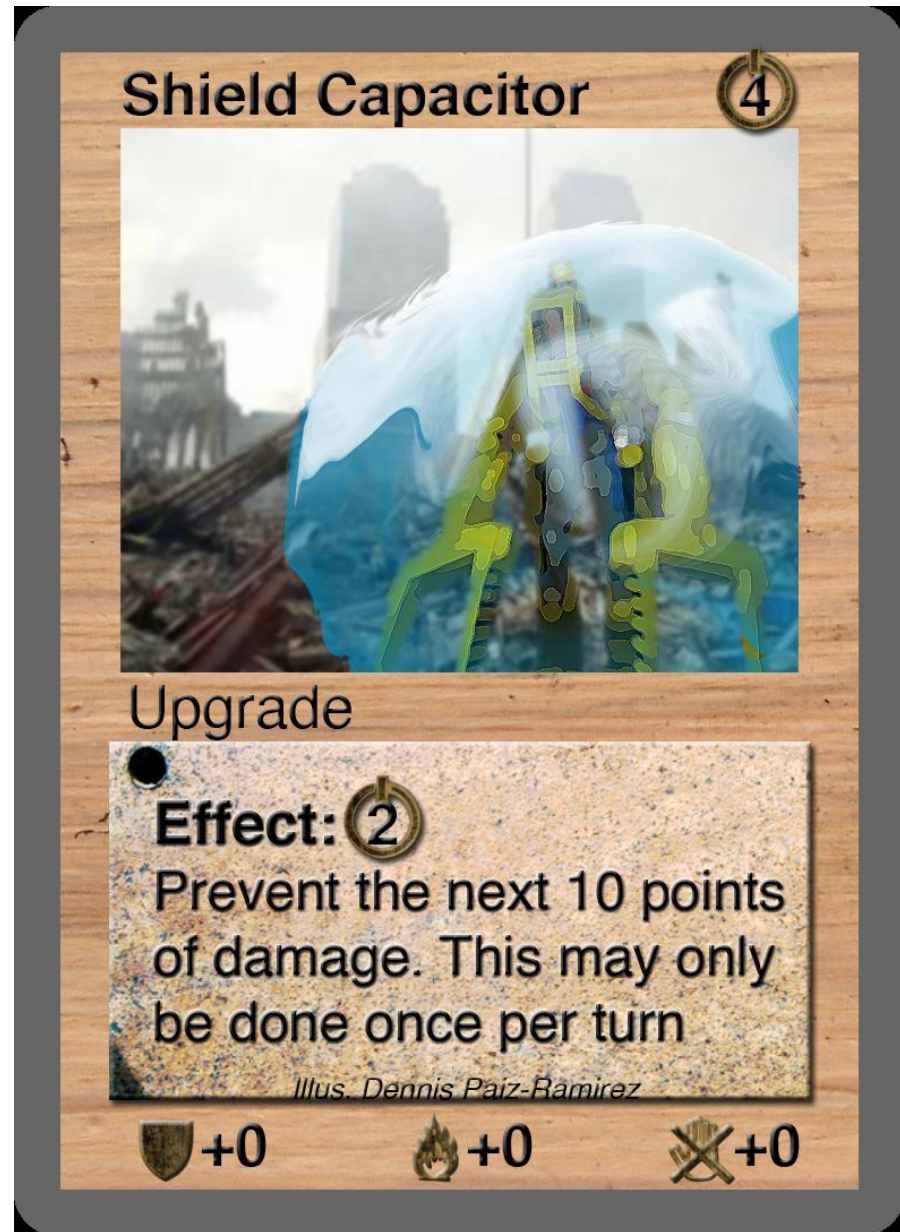

Event Cards

- Event Cards activate special and usually large effects on the battlefield or mechs.
- They can be used to set traps, coup de grace attacks, or grant temporary powerful attributes.

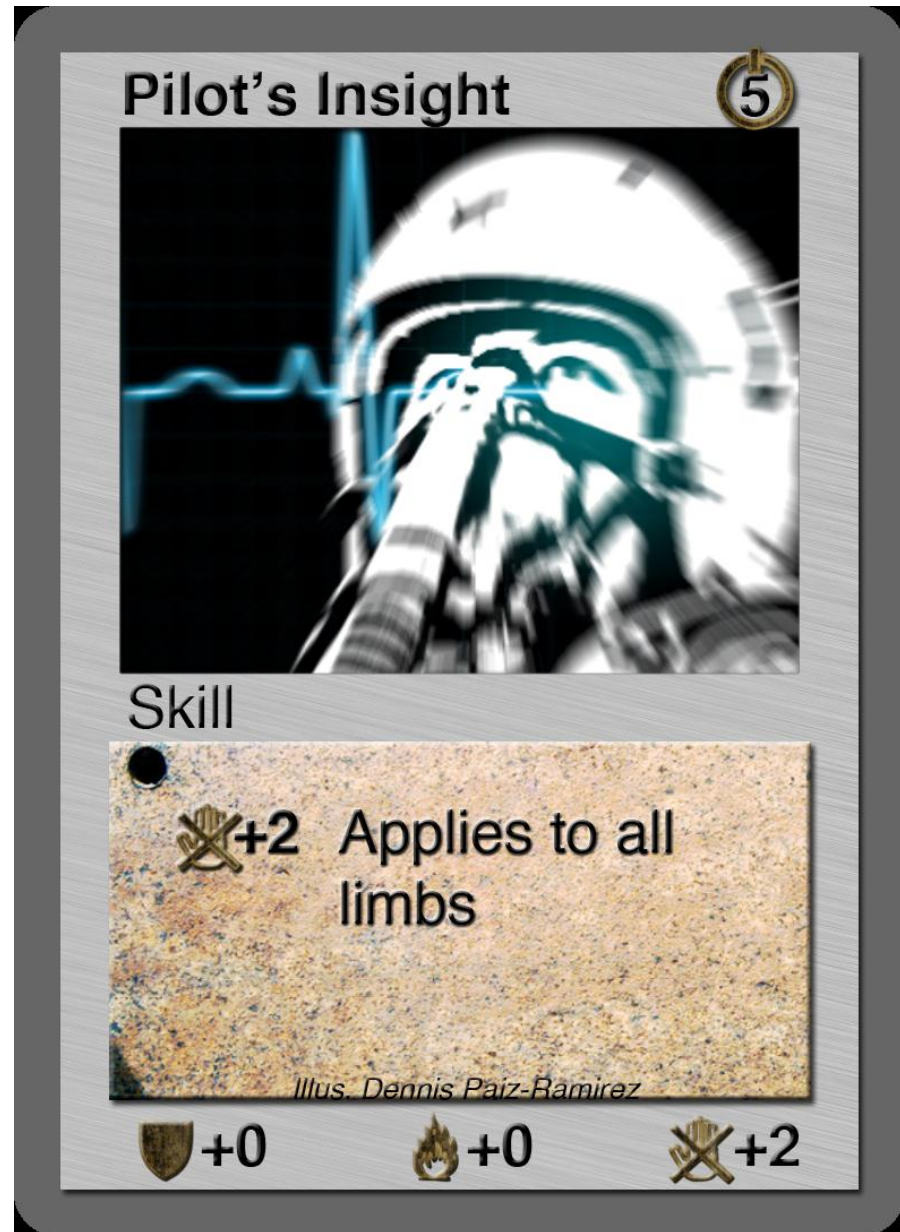

Upgrade Cards

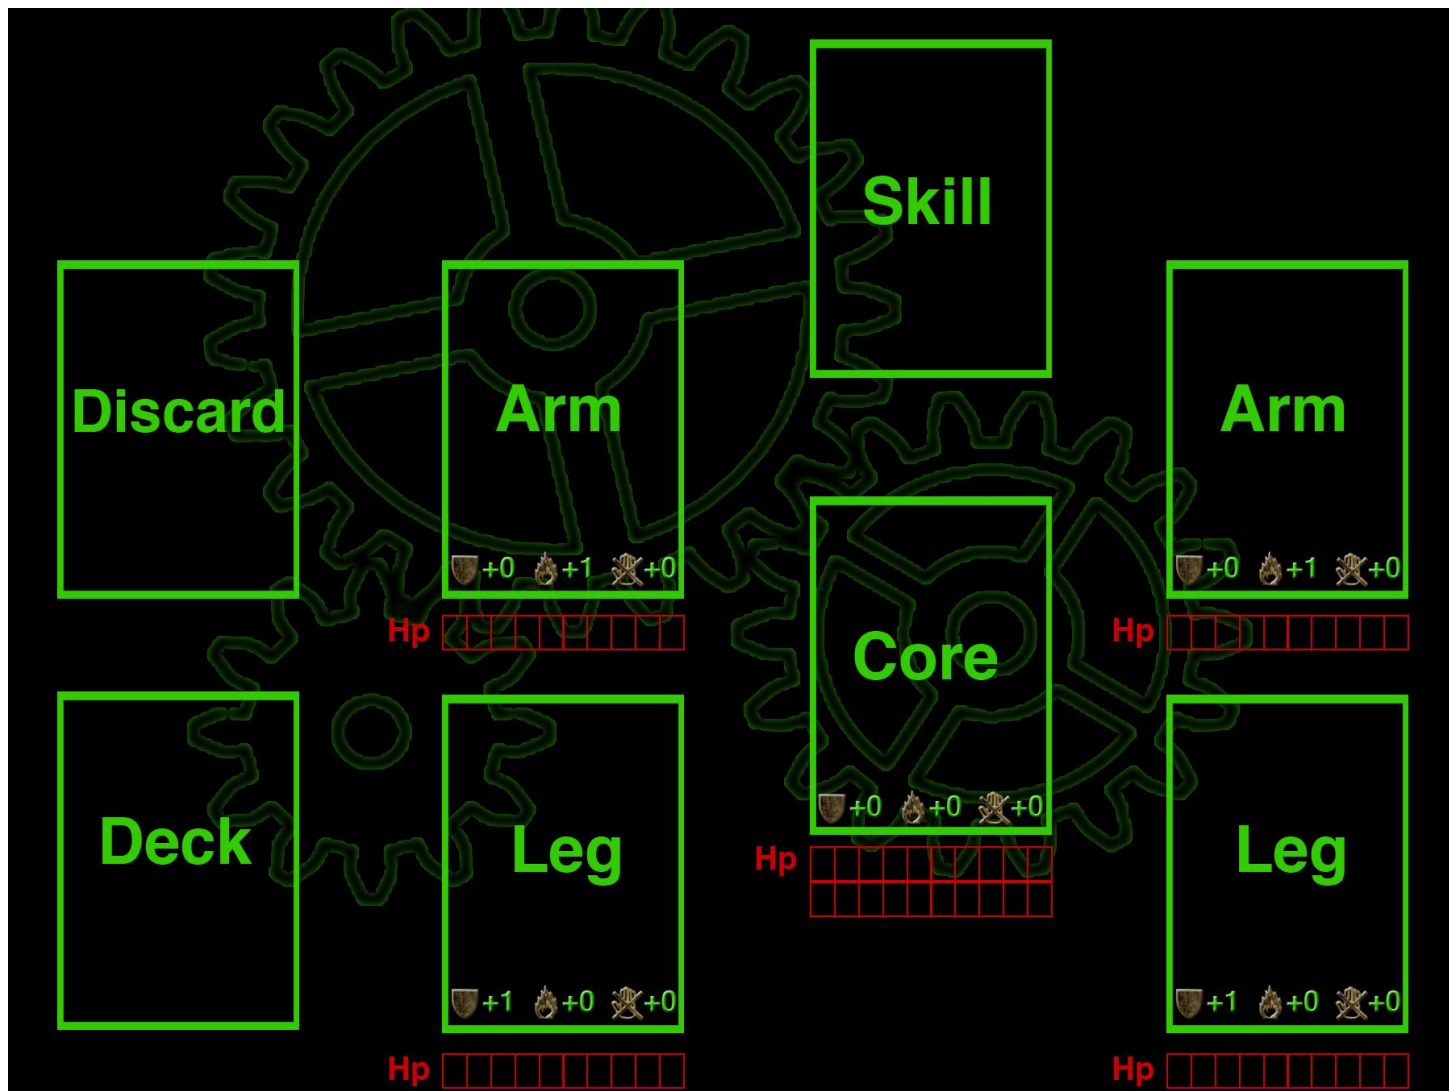

- Upgrade cards range from wielding weapons and armor, and other supplies that attach to a limb on the mech mat.
- These are primarily used in constructing and customizing the player's mech.

Driver Skill Cards

- These cards are replayable.
- These are primarily used in augmenting stats and applying changes to the overall machine periodically.

Each player gets a mech mat. Each limb has an HP counter of its own.
When it's reduced to zero that limb is destroyed.
